Grading criteria

This evaluation covers the project work as a team, including the presentation

Understanding of the problem	Demonstrates no understanding of the problem; unable to articulate the key issues <i>0 points</i>	Shows basic understanding but with significant misconceptions or gaps <i>4 points</i>	Demonstrates a good understanding of the problem but lacks depth in some areas. <i>6 points</i>	Exhibits a strong understanding of the problem with minor areas for improvement. <i>8 points</i>	Demonstrates an excellent, comprehensive understanding of the problem. <i>10 points</i>
------------------------------	--	--	--	---	--

Quality of Analysis and/or Results	No analysis conducted or results presented are irrelevant or incorrect <i>0 points</i>	Basic analysis conducted but with significant flaws or incomplete results. <i>10 points</i>	Moderate quality of analysis; results are valid but lack depth or thoroughness. <i>20 points</i>	High-quality analysis; results are robust, logical, and well-presented, with minor areas for improvement. <i>25 points</i>	Exceptional analysis; results are comprehensive, insightful, and thoroughly validated. <i>30 points</i>
Innovation/Creativity	No evidence of innovation or creativity; approaches are conventional or copied. <i>0 points</i>	Some innovative or creative ideas, but they are underdeveloped or not well-integrated <i>5 points</i>	A moderate level of innovation and creativity is demonstrated, but there's room for more exploration or development <i>10 points</i>	High level of innovation and creativity, contributing positively to the project's outcomes. <i>15 points</i>	Outstanding innovation and creativity, significantly enhancing the project's value and uniqueness. <i>20 points</i>
Appropriate use of technology/tools	No or inappropriate use of technology/tools; technologies used do not align with project needs <i>0 points</i>	Basic use of technology/tools, but with significant misalignments or inefficiencies. <i>5 points</i>	Adequate use of technology/tools but with areas that could be optimized or improved. <i>10 points</i>	Effective and purposeful use of technology/tools, with minor areas for improvement. <i>15 points</i>	Excellent use of technology/tools, perfectly aligned with project needs and highly efficient <i>20 points</i>
Presentation	Presentation is disorganized, unclear, or incomplete; lacks professionalism <i>0 points</i>	Presentation is somewhat organized but has significant areas that need improvement for clarity or engagement. <i>4 points</i>	Presentation is organized and clear, but lacks engagement or polish in some areas. <i>6 points</i>	Presentation is well-organized, clear, and engaging, with minor areas for improvement. <i>8 points</i>	Presentation is outstanding in organization, clarity, engagement, and professionalism. <i>10 points</i>
Demonstration of the final output/product	No demonstration of the final output/product is provided, or it is entirely non-functional. <i>0 points</i>	A demonstration is given, but it is incomplete, unclear, or significantly flawed, making it hard to understand the output/product's functionality or effectiveness. <i>4 points</i>	The demonstration effectively showcases the output/product, but there are notable issues or areas lacking polish or full functionality. <i>6 points</i>	The demonstration is strong, providing a clear and functional view of the output/product, with only minor issues or areas for improvement. <i>8 points</i>	An excellent demonstration is provided, clearly showcasing a polished, fully functional, and effective output/product. <i>10 points</i>
